

SHEA Butter Market

What people are telling us about Shea Butter Market Products

These comments are so thrilling to me. It means that our work to bring the benefits of Shea Butter to North America is working and that somehow we are connecting the work of the Tapko Widows to the to North American skins in a way that everyone wins. If you have comments you'd care to share please send them to me at gifty@sheabuttermarket.com

Thanks so much to all of you for helping to make this dream possible.

GIFTY

I like it! It moisturizes my lips so well. I like the fact that I don't have to worry about side effects or hurting some endangered species and it's affordable. I also like the people who make it, especially because their ethical business practices (Pamela Eberhardht, Cobble Hill, BC).

It worked on my mom's bedsores when nothing else would. After trying many other produces with no success the Shea Butter worked magic in days. I call it magic cream!
(JoAnne Bennett, Ottawa Ontario)

Hi Gifty,
I love that Shea Butter! It is the best face cream I've ever discovered.
Thank you all for it and it is such a relief to buy something and to know that families have both created this are benefitting.
Sincerely,
Jill

I used Gifty's Shea Butter products on my belly every single day I was pregnant, and I have not one single stretch mark. I'm no scientist, so I don't know if that's genetics, but I firmly believe it had a lot to do with the product itself.
I'm delighted for all of you on this wonderful news!!
Catherine Clark

Hello Gifty,

I am a great admirer of your shea butter and it is the only cosmetic product I've used for the past few months. I am extremely pleased with the results and I'll never go back to those chemically laden skincare products found in every drug or department store.

The fact that the shea butter you carry is unprocessed and doesn't seem to have expiry date makes me consider purchasing bulk quantity for personal use. Please specify the minimum quantities you ship and a price list.

Thank you , Luba

I've been using Gifty's Shea Butter 'Just Shea' for several months now and I love it! I'm 33 weeks pregnant now (and my belly is larger in size than normal according to my doctor) and I'm thrilled to say I don't have a single stretch mark on me. That was the number one reason I was interested in trying the product – fear of stretch marks.

I also noticed that itchy skin started to become a problem – apparently common in pregnancy. I've tried a variety of lotions and the only thing that seems to take the itch away is the Shea Butter. It has kept my skin very soft and moisturized and not dry, especially going through a winter pregnancy. Let me know if you need any other information from a happy customer!

Yesterday I bought a Shea Butter jar from Gifty at Thrifty's on Quadra Street. Just a great product! I was kindly also given a complimentary jar of Shea lav. For fun and out of curiosity I began rubbing small amounts of the latter, during the course of the evening, on a spot of eczema that developed on my wrist about one month ago. In this short space of time (24 hours) I can see a VERY noticeable change for the better on the eczema.

Prior to using the She Lav, I applied Polysporin, Gardeners Dream Cream and Carmex Lip Balm to the spot all of which kept it at bay but none of which cured the spot - in fact I was about to go and request a prescriptive cortisone cream at the local medical clinic. Now however, thanks to your product, I no longer need to do this. I most certainly will encourage others to try your products.

I wanted to thank you for the hand massage and wish you continued success in distributing your product. The values and dedication with which you operate your business are much admired.

Ingrid Salyn

Shea butter worked when nothing else would soothe my dry, cracked and bleeding skin.

(Joan Bourque, Powassan, Ontario)

*Dear Gifty,
I just had to write you to tell you my experience with
your products!*

*I tried your products for the first time a little while
ago, and after I got the hang of rubbing it in the palm
of my hands before spreading it on, I was so
pleasantly surprised at how so little goes a long way.*

*Your product soaks into the skin slowly, but boy does
it last a long time! And the softness I feel all day long
is incredible! When I'm outside after putting Shea
Butter Market on, the colour of my skin is so rich and
beautiful I can't believe it! My tan looks great!*

*Last weekend I was in the garden, and my back got
sun burnt badly. I decided to try your product and
what a relief! Shea Butter Market has saved my skin!
I could move without the pain of tight skin, and it's
been 4 days and my skin looks great, and I have not
peeled! In fact, my tan has never looked better!*

*I can't thank you enough for bringing this wonderful
beauty product to our stores. And to know that it is
an Organic product and that I am making a difference
in the lives of women and children in Tapko Village,
Africa is very meaningful to me. We all win.
Sincerely,
Carmelyn Swann; Orangeville, Ontario,
Canada*

*When I lived in Saskatchewan the winters were very hard on
my hands. The index finger and the universal 'I am
disappointed in you' finger would succumb to the dry winter
weather. They would lose the epidermis and take on a red
angry appearance. I eventually solved this problem by
moving to Vancouver Island!*

*However, I do a lot of work in Saskatchewan which often
requires me to stay over periods of weeks. Within days, the
subject fingers begin to lose skin and chap up and would stay
like that for months after my return. After listening to Gifty
extol the benefits of Shea butter I decided to try some. The
results were amazing!! Within days, the skin on my hand was
healing and was back to normal within one week.*

*Now let me say that over the years I tried various salves and
ointments on my hands to mitigate this problem to no avail.
Only Shea butter solved the problem. Thank you Gifty and
Thank you Shea Care!*

Robert Isbister, Duncan, BC

*I have been using the shea butter that Esenje gave me
& it feels so good that i want to experience shea butter
all over my body!!! It is very nurturing & nourishing
for me. My skin loves it. I love supporting wombyn &
children. I love supporting trees. I love supporting
Fair Trade--It is the Best.*

*Thank you for this inspiring ethical creation. What a
leader you are!!! i just sent an email to Esenje, asking
if she is ordering any, since we are neighbors, perhaps
we can make an order together. I give massages so
your shea butter is Divine for that. Thank you!
Love & hugs, Dawnee*
